EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yonggang Ji on January 4, 2007.

The application has been amended as follows:

(a) In claim 1, the limitation --wherein said labeling step comprises reacting said target nucleic acid with a conjugating moiety that specifically reacts with said phosphorothioate moiety, followed by reaction with a labeling moiety that specifically reacts with said conjugating moiety-- was added at the end of the sentence.

(b) The claims 3 and 15-39 are canceled.

2. The following is an examiner's statement of reasons for allowance: The claims 1, 4-9 and 11 as currently amended are in condition for allowance because no prior art was found teaching or suggesting a method of labeling cRNA by incorporating a phosphorothioate moiety to the cRNA followed by conjugating a reporter molecule to the phosphorothioate moiety.

The closest prior art, Zoeller et al. (The Journal of Histochemistry and Cytochemistry, vol. 45, no. 7, pages 1035-1041, 1997) teach labeling cRNA with S³⁵-UTP, which forms a phosphorothioate moiety. Zoeller et al. do not teach the step of further conjugating a reporter molecule to the phosphorothioate moiety because a reporter is already present and not necessary.

Conway et al. (Bioconjugate, vol. 2, pages 452-457, 1991) teach labeling DNA by incorporating a phosphorothioate moiety to the DNA and conjugating a fluorescent moiety to the phosphorothioate moiety. Conway et al. do not teach labeling RNA or cRNA. Conway et al. do not provide any suggestions or motivations for labeling cRNA in such a manner.

No motivation could be found in the prior art for the instant invention as claimed or for combining the references cited above. Accordingly, an obviousness-type rejection against the instant claims could not be made.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cynthia B. Wilder, Ph.D. whose telephone number is (571) 272-0791. The examiner can normally be reached on a flexible schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571) 272-0782. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
